Title IX Proportionality Figures for CVHS

Providing participation opportunities for male and female CVHS student-athletes is one of our top priorities. The percentage of female student-athletes should be proportionate to the overall female population of the school. The ratio needed for compliance is determined on a case by case basis by the Office of Civil Rights (OCR) but in general, to be considered “proportional” means the ratios must be within five percent (5%) or less. The participation figures at CVHS during the 2015-16 school year were as follows:

CVHS Total Participants 2015-16	Male: 607 Female: 428
Male Participants / Total Male Population:	607 / 1083
Female Participants / Total Female Population:	428 / 1098
% of Male Athletes / % Male Population:	58.6% / 50%
% of Female athletes / % Female Population:	41.4% / 50%
